FAST AND FURIOUS

THE NEW SHELBY CSX. If you like to soar on the cutting edge of automotive performance, you should be flying a Shelby CSX. It's 175 horsepower. It's 0-60 in 7.0 seconds, according to *Car and Driver* magazine.* It's the only production car in the world with the snarling leap-off-the-line power of Garrett's new variable nozzle turbocharger (VNT). But most of all, it's a Shelby CSX. The stuff that dreams are made of.
